Subject: Handbook on *Environmental Biology*
Second Status Report
1 December 1964 to 28 February 1965

N65 83006

In accordance with the provisions of NASA Form 419 (1-63), Contract No. NASr-238 between the National Aeronautics & Space Administration and the Federation of American Societies for Experimental Biology, the second Status Report for the handbook on *Environmental Biology* follows:

- (1) 82 tables have been completed in rough draft.
- (2) 196 pages have been typed in first draft form.
- (3) 93 pages have been sent out for review.
- (4) Within the next three months, all new and revised data should be in; three-fourths of the tables should be completed in first draft form; one-half of the reviews of first drafts should be completed.
